Lyon L-93.0439, India: Shillong, Garo Hills; via Edinburgh 831005; to Waimea 93p214. Edinburgh rcvd seed from Mt. Kinabalu Exp. (but record shows India). J. Mood comment, Nov 2004: "*Hedychium stenopetalum* flowers are supposed to be white with yellow-green at base. Your specimen appears orange???" [There could have been a mistake in labeling or during the transfer. [So what is this, *H. coccineum*?](#) - RFB.]
