SE Asia.

R.Baker 12850

Nong Nooch 10493, as *Z. parishii*, now **DEAD** at Lyon. J. Mood comment, Nov 2004: probably *Z. cochinchinense* “as per Thai doctoral student Pramote. I cannot confirm this.” Also published as *Z. mythianum* C.K. Lim. As Dr. Larsen states, this is not really an acceptable species name due to it does not follow nomenclatural rules.
