

# *Zingiber olivaceum* J. Mood & I. Theilade

7924

7925

7926

Native to  
Thailand.

**L-99.0503**, J. Mood 97p086, as *Z.* sp. nov., (previously though he would call it *Z. parvispectabile*). Planted **near H2-14-6**, 4' below *Fagraea fragrans*. Most photos by Eleanore Burson, 16 Apr 2001; at right by R.Baker, 4 June 2002.

**2001.0573**, from J. Mood. (Has its own page.)

Also **2001.0558**, J. Mood (no #); ready to plant, behind GH, Apr 02.

Above:  
2003.0165 as  
originally  
photographed (Z.  
aff.  
*cochinchinense*).

**MORE**

**Lyon 2008.0110** (formerly "2003.0165", "Z. aff. *cochinchinense*") in H26. This may be a labeling error, since these do not match the original pictures at time of collection. (See next page.)

**Lyon 2008.0110** (formerly 2003.0165, Thailand: Nong Nooch 9556, as *Z. sp.*) 2 planted 12 Jul 2004, **H26, slope above *Arenga undulatifolia*, below *Drymophloeus***. ID as *Z. aff. cochinchinense* by J. Mood, 21 Nov 2004, based on photo 12485, but the two pots shown in 12484 have proven to be *Z. olivaceum*. Probably a labeling error.
